

MERMEREN KOMBINAT winner of the National

Award for Health and Safety at Work

(Skopje, April 28 2014)

Macedonian Association for Health and Safety at work awarded Mermeren Kombinat Prilep with the National Award for best practices for safety and health at work for 2013. The award was given today at an event to mark World Day for Safety and Health at Work organized by the International Labor Office Skopje, the Macedonian Association for Occupational Safety and ILO / CIS Coordinating Center.

National award for Mermeren Kombinat is in the category of large companies.

”This award is extremely important to our company. It is recognition of the joint efforts of management and employees to ensure the highest safety standards at work. We strive not only to meet the requirements and safety standards at work set by the law, but to do more than the required. Besides others, in order to ensure highest safety standards of our employees we continuously invest in new equipment which secures better conditions regarding the control of noise, dust, vibration and physical effort. The company invests generously in continuous staff training aiming to development and safety awareness. The safety of our employees remains our number one priority.”

Commission responsible for choosing judged applications received and visited all selected companies in order to confirm the above data to determine potential differences in the information listed in the application and the inspection visit to the companies themselves.
